SOUTHERN WIDE REAL ESTATE

FOREWORD

I'd would like to welcome you to the Midlands Ram Sale. The rams on offer are suitable for all situations. With the lamb market as good as it has ever been and the abundance of rain and grass our lamb producers are in a very strong position to go forward and get paid what they deserve. The on farm lamb sales around our region have been very positive and it is interesting to note that the more traditional breeds are featuring in the top pens. I'm ever mindful of the effect our rams have on your operation and to this end I wish you every success with the rams you purchase today and thank you for your attendance.

DAVE GILLESPIE

The Midlands Southdown stud was founded in 2001 on Clifton Downs and Bankhead bloodlines. In 2014 NJ Harrell's stud was purchased, comprising 75 ewes and 25 ewe hogget's. In 2018 approx. 300 stud ewes were mated.

VENDOR

MIDLANDS SOUTHDOWNS

GILLESPIE, A D

FLOCK PREFIX: Midlands, SIL#4999

P: 03 312 4140 • M: 021 0848 8610 • 1246 Woodstock Rd, RD 1, Oxford 7495

CONDITIONS OF SALE

1. This sale will be conducted under the New Zealand Stock & Station Agents Association Conditions of Sale. When proceeds are credited or a purchase is debited to a RLL account the companies terms and conditions apply to the extent deemed relevant. These terms can be inspected at the registration desk and on the wall in the auction room. The current versions of PGWS and RLLS terms and conditions are also available on their websites.
www.rurallivestock.co.nz/assets/Uploads/RLL-TERMS-OF-TRADE-July-2017.pdf
2. Each lot shall become the property of the purchaser at the fall of the hammer.
3. Finance terms are strictly cash prior to delivery unless credit arrangements have been made with the Auctioneer prior to the sale.
4. The entry of rams in this catalogue constitutes a guarantee of fertility. Any disputes shall be settled by an Arbitrator appointed by the Auctioneer.
5. Although all care has been taken to ensure the accuracy of the information contained in this catalogue, no responsibility is accepted for any error or omission.
6. The Sale will be conducted exclusive of GST.
7. A rebate commission will be paid to outside companies introducing buyers to the selling company at least 24 hours prior to the sale.
8. **TRANSPORT:** Leave full and explicit instructions in regard to transport
9. **INSURANCE:** The Selling Agents can arrange insurance on any stock.
10. Upset Price: Terminal breeds \$500 at auction, any passed rams \$600.00..
11. If a transfer is required the transfer price will be \$2,000.

OVERSEAS EXPORT

12. Prior to auction - Purchasers who wish to export the animal/s (“Export Purchasers”) must advise the auctioneers at least 2 hours prior to the sale commencing that they are considering purchasing specific breeds at the auction. The Auctioneers will then advise all vendors of relevant breeds that their animals are being considered for export. Vendors not wishing to have their animals considered for export are to advise the Auctioneers.
13. Purchase at auction by Export Purchasers is conditional upon the animal/s purchased passing all relevant export protocol and testing (conducted at the Export Purchaser’s expense). Full payment (plus GST) will be made at the fall of the hammer to the Auctioneers as per usual terms and conditions. Payment will be held by the Auctioneers until the animal/s leave New Zealand. Payment will be refunded to the Export Purchasers less all associated export costs for any animal/s purchased failing export protocol and testing.

ALL RAMS ARE VET TESTED AND ACCREDITED BRUCellosIS FREE

OSH Every effort will be taken by the Vendors, Rural livestock Ltd, their staff and assistants, both on the sale day as well as any visits of inspection to ensure the safety of intending buyers and visitors. We wish however to advise that while this sale is run under normal management conditions, certain dangers exist in relation to livestock and their environment. Visitors should take care to ensure their personal safety.

ANIMAL HEALTH

1. All rams are vet tested and accredited brucellosis free.

EYE MUSCLE SCANNING DATES

01/04/2019

ESTIMATED BREEDING VALUES

Estimated Breeding Values (EBV's) for all rams are presented with each lots data in the catalogue. For an explanation of how to understand these Breeding Values please see page 5.

UNDERSTANDING SIL INFORMATION

SIL (Sheep Improvement Ltd) is the New Zealand sheep industry's performance recording and genetic evaluation database. It is part of B+LNZ Genetics – a division of B+LNZ. It is therefore owned by New Zealand farmers, being funded by sheep meat levies and fees charged to breeders.

THE NEW ZEALAND GENETIC EVALUATION

The New Zealand Genetic Evaluation (NZGE) is a single weekly evaluation that involves all active flocks recorded on SIL and non-active flocks that provide useful information on pedigree and performance. It objectively “compares” the performance of various traits – making it a powerful source of genetic information for breeders and commercial farmers.

NZGE blends genomic information with the pedigree and phenotype information in a ‘single step’ analysis. This means, where there is genomic information on an animal or its close relatives, it is blended into its breeding value and indexes. The breeding value is termed a ‘gBV’ – ie genomically informed breeding value. For simplicity, the breeding value for animals with no genomic information is still denoted as gBV, as it comes from the same single step analysis.

INTRODUCTION TO MEASURES OF GENETIC MERIT: BREEDING VALUES & INDEXES

More than 80% of the flock's genetics are contributed by the ram. That's an exciting opportunity to improve your flock's performance. gBVs are expressed in the units the trait is measured in (e.g. kg for weight, number of worm eggs in faeces), and are an estimate of the value of the ram's genetic merit for the trait. Generally, a more positive gBV is more favourable but there are some exceptions (e.g. less worm eggs are more favourable).

Indexes have been created with the commercial farmer in mind. An index is an economic value applied to a grouping of gBVs. A more positive economic value is always more favourable.

EXPLANATIONS FOR COMMONLY USED NZGE DATA

Abbreviations	Definition
NLB gBV	Number of lambs born
WWT gBV	Weaning weight – “lamb growth”
LW8 gBV	Body weight at 8 months of age – rates animals for post-weaning growth
EMA gBV	Eye muscle area in 18kg carcass
FATY gBV	(Whole carcass) Fat yield – kg per kg of carcass
FW12 gBV	Fleece weight at 12 months of age
NZMW index	New Zealand Maternal Worth is expressed in cents and is an estimate of genetic value for number of lambs born (DPR), lamb survival (DPS), lamb growth (DPG), adult size (DPA) and wool production (DPW).
NZTW index	New Zealand Terminal Worth is expressed in cents and is an estimate of genetic value for growth (TSG), meat yield (TSM) and survival (TSS).

WHAT ABOUT STRUCTURE AND SOUNDNESS?

It is expected that rams put up for sale have already been robustly checked for soundness and ability to mate. However, everyone has different ideas around characteristics they are looking for and what they are prepared to accept. SIL recommends focusing on things that will either make or cost money, when selecting structure.

SIL CONTACT DETAILS

For more information, contact SIL via email (silhelp@sil.co.nz) or freephone 0800 745 435.
